

BridgeTech Partners with Alegro Capital

Monday February 25, 10:30 am GMT

LONDON, England, February 25, 2008 (PRIME NEWSWIRE) – BridgeTech Industries today announced that it has entered into an agreement with Alegro Capital for them to act its financial adviser in relation to assisting the company in raising further equity and in post funding, assisting the company with general corporate finance advice.

“Our partnership with Alegro Capital is a vital next step for BridgeTech as we look for further investment partners to support us in realizing our company vision” said Peter Khoury, Chief Executive Officer of BridgeTech Industries, “Alegro’s extensive experience in clean energy technology ventures makes them ideally suited to assist us in identifying the right partners to develop and exploit our disruptive technologies.”

About BridgeTech Industries LLC.

BridgeTech Industries LLC is developing, building, & commercially exploiting ground-breaking renewable clean energy solutions; a patented suite of solar power technology, GyroSolé™, conceptualized by Dr. Charles Bennett of [Lawrence Livermore National Laboratory](#) of California. This technology offers the opportunity to make the cost of solar energy competitive with fossil-fuel powered sources—today. For more information visit www.bridgetechindustries.com.

About Alegro Capital Ltd

Alegro Capital is an independent corporate finance advisory firm focusing on clients across Europe and the US. The firm was founded to provide senior-level, conflict-free advice and execution for its clients' highest priority strategic challenges. Alegro takes a generalist approach across industries but has developed significant expertise and intellectual capital in the Telecoms, Media and Technology (TMT) and Retail, Industrial and Consumer (RIC) sectors. The firm nurtures a robust ecosystem including key strategic players in these industries as well as the private equity, venture capital and hedge fund communities. Alegro professionals have successfully completed well over 100 M&A and corporate finance transactions for over \$50 billion in value and various advisory assignments in over 15 main European countries, as well as in the US and Asia.
